TAPA FUGAS^{is} K11[®]

SEALANT FOR MICROLEAKS
CONSOLIDATED IN THE MARKET AS A
LEADER IN **QUALITY AND PERFORMANCE**

CORRECTIVE and **PREVENTIVE** action for AC-R systems, transport, passenger and cargo (automotive, rail, air and sea).

Syringe for up to **36mil BTU/h** or **3 TR**

Feril for up to **16 TR** or **1,8L** of oil

Compatible with all types of fluids and lubricants

Does not react with oxygen and moisture, does not clog the capillary and expansion valve, does not damage the compressor

Remains active in the system indefinitely, as long as the oil is not changed

Cód. • TFK11 SYRINGE - 10ml

Cód. • TF-K11 REFIL - 60ml

CERTIFIED PRODUCT

Guaranteed Chemical Stability!

RoHS
Free from hazardous substances CE

Easy
Application

SYRINGE CONNECTOR

TAPA FUGAS K11®

2in1

A SOLUTION THAT **LOCATES** AND
ELIMINATES ALL MICROLEAKS
AT THE SAME TIME!

Product that combines in a single application
the action of the high-performance sealant
TAPA FUGAS K11® with the fluorescent
contrast **REVELA FUGAS K11®**

For up to **36.000 BTU/h** or **3 TR**

Compatible with all refrigerant gases (HFC, HCFC, CFC, HFO) and oils (POE, PAG, mineral, AB)

Intense fluorescence under UV, or violet, light

Effective on metals, plastics, rubbers and other internal components

Non-flammable, free of aggressive solvents and environmentally safe

Easy
Application

SYRINGE CONNECTOR

Ideal for applying the

REVELA FUGAS K11®

UV CONTRAST THAT LOCATES ALL LEAK POINTS IN AC-R SYSTEMS!

High-performance product developed for fast and accurate detection of refrigerant and lubricating oil leaks in refrigeration and air conditioning systems.

Single dose for up to **3 liters** of oil

Compatible with all types of refrigerants (HFC, HCFC, CFC, HFO)

Intense fluorescence under UV, or violet, light

Non-corrosive – safe for metals, rubbers and plastics

High miscibility with lubricating oils for compressors

Stable over a wide range of operating temperatures

Easy
Application

Ideal for applying the
REVELA FUGAS K11®
SYRINGE

SELLA PLUS K11[®]

SEALANT AND LUBRICANT HVAC-R PREMIUM FOR

Flanges

Connections

Gaskets

O-rings

With a high-performance formulation, **Sella Plus K11** is designed to guarantee **reliable sealing and superior lubrication** for flanges, joints, connections, and o-rings.

Easy application

It never **hardens** or **crystallizes**

Safe for all refrigerant **systems** and **fluids**

This product is **blue in color**, which facilitates control during installation and identification for future maintenance
